ONE WEAK SPOT.

A Lame, Aching Back Is the Bad Spot for Many Folks.

Most of us have a weak spot, and too often it's a bad back, caused by sick kidneys. Backache is really kidney-ache, for the kidneys are in the small of the back and when congested and sore, the back aches after every little exertion. It's almost impossible sometimes to straighten after stooping. The only way to cure kidney backache is to cure the kidneys. Chief of Police J. F. Freeland, of Durham, N. C., says: "Sometimes my back was so bad I could not walk erect. If I sat down for awhile I could not get up without taking hold of something. Doan's Kidney Pills banished the backache, regulated the kidney secretions and helped me in other ways."

CHICAGO "DRYS" ARE PREPARED FOR FIGHT

CHICAGO, ILL.—Special.—Determined to fight on even if the board of election commissioners does nullify their petition for ballot on the sale of liquor, the "dry" have prepared for action.

The election commissioners' decision, which will fix the date of the election, was ready to be announced today.

If the "wets" win in the decision, as they expect to, it will be a case against time, with the main action transferred to the Supreme Court of the State, attorneys of the "dry" already having begun preparing for mandamus proceedings.

The Supreme Court does not convene until April 1st, so the "dry" will have only four days in which to work to compel the election commissioners to put the prohibition issue on the ballot.

To counteract this move, the "wets" are preparing to place legal obstacles in the road of the "dry" to delay court action until after the election. Many of the "wet" advocates today urged the bringing of criminal action as a check to the "dry" activities. It is alleged that the "dry" petition contained many illegal names and that fraud was thus perpetrated on the election commissioners.

The Stomach Telescope.

The "stomach telescope," or gastro-scope, invented at the London Hospital last year and described in this column some four or five months ago, has proved to be of the greatest value in the diagnosis of stomach disorders.

An eminent surgeon recently referred in the highest terms to the advance lately made at that hospital in the early detection of diseases of the stomach by means of this instrument, which will in the immediate future probably come to be part of the equipment of every up-to-date hospital.

The gastro-scope now enables the physician or surgeon to actually see for himself the actual condition of the whole of the interior of the stomach, the slightest ulceration, growth, or other abnormality in the lining membrane being thus readily observed.

To be able to do this is of the very greatest importance in suspected cancer of the stomach, where the only hope of cure lies in the eradication of the cancerous growth at the very earliest moment. This means that the increased use of the gastro-scope will in the future save many lives that would otherwise have been lost through that disease.—London Telegraph.

GAYNOR SPOKEN OF FOR PRESIDENT

New York Mayor Mentioned for President at Secret Dinner at Hot Springs.

HOT SPRINGS, ARK.—Special.—A boom for Mayor William J. Gaynor, of New York, as the next Democratic presidential candidate, was launched in secret here at a dinner attended by some of the foremost Democrats of the country. It was declared today. The dinner was given at a hotel, but at the home of W. S. Martin, who has entertained President Taft and William Jennings Bryan.

The dinner was ostensibly a compliment to Norman E. Mack, chairman of the National Democratic Committee, but according to some of those who attended, the real object—the Gaynor boom—was made clear.

Among those present were Charles F. Murphy, leader of Tammany; Philip Donohue, the Tammany treasurer; Roger Sullivan, national committeeman from Illinois; ex-Mayor M. Fitzpatrick, of New Orleans; and Governor Donaghy.

Other Southern Governors and politicians had been invited, but did not accept.

Styles in Weather.

Of weather we observe examples. Through the year, but how March has all the samples. That is clear.

Show in winter, heat in summer, rain in fall. March has samples, like a drummer. Of them all.

—Washington Herald.

First Aid

For weak women, who suffer from women's ills, there is a standard medicine of proven merit—CARDUI, the woman's tonic. Cardui has been helping sick women for more than half a century, and has come to be recognized as the first aid for woman's troubles.

Letters come from all over the country, from women who have used CARDUI. They write to tell of the good that Cardui does for them. Their letters give good reasons why you should

The Woman's Tonic

Mrs. Nellie Duncan, 1917 So. 11th St., St. Joseph, Mo., writes: "If it will help some other woman, I am glad to send you my testimony about CARDUI. I had never been well since I came to womanhood, and suffered with female trouble until I could scarcely get around. Four bottles of CARDUI have done me more good than \$25.00 of doctoring. I feel fine and don't have that awful pain in my head and side. I can't praise the CARDUI Home Treatment enough."

Try Cardui. It has helped others. It will help you. At all druggists.

Woman's Department

People Who Argue. There are some people who are never convinced. They will argue a subject out for hours at a stretch, and be no nearer a solution than they were at the start.

It is hopeless to try to convince such a person on any subject. The truth is, it gives them pleasure to argue, and the more you disagree with them the better they are pleased. If you find yourself dropping into the habit, try to drop out again as soon as possible.

To the Pearl Buyer. "For every pearl you wear you will shed a tear," says an old adage, but the modern woman who knows the worth of the button pearl or the baroque is undaunted.

The value of pearl depends largely upon its tint, but there is a process of staining which often produces the pink of the Oriental pearl. Only a connoisseur should invest in pearls alone. The good pearl is large, very round, smooth, and iridescent.

Read Bags. The woman who covets a head bag this season (and they are very fashionable) will do well to learn the correct stitch, buy some beads, and archet stitch, buy some beads, and make the bag at home. There is a style that shows a cabochon in the very center of the bag, and when this huge stone is indicative of one's birth month, there is more sentiment to the little trinket than one might imagine. Bag work is comparatively easy to learn, so no one need despair of owning a pretty opera bag. A home-made bag does not necessarily fall far from perfection, provided draw strings are not objectionable.

Dried Apple Cakes.

Two cups of dried apples, two cups of butter, and one cup of sugar, mixed, in the morning chop and simmer in milk for two hours. When nearly cold, add in order given: One-half cup of butter, one cup of sugar, two eggs, one dessertspoonful of soda, one cup of sour milk, four cups of flour, cinnamon, clove, and nutmeg to taste. Bake in loaf pan in moderate oven.

Facts About Crowns.

The lightest of European crowns is the state crown of Great Britain, which was made for Queen Victoria sixty-six years ago. Although it weighs only two pounds, seven ounces, its value is \$1,600,000. One enormous sapphire came from the signet of Edward the Confessor. One of the rubies had a sadly tragic history. It was at one time in the possession of one of the great kings of Granada, whom Pedro the Cruel invited to his palace

SULPHUR

HANCOCK SULPHUR COMPOUND LIQUID Large \$1.00—Small 50c. Effective for Eczema, Itch, Ringworm, Psoriasis, etc. All skin eruptions and Scaly Affections. Take one or two capsules three times a day, with meals. For sale by Druggists. Manufactured by

Hancock Liquid Sulphur Company

BALTIMORE, MD.

Acquire the Saving Habit

When once formed, the inclination for useless and extravagant expenditures rapidly disappears, and the incentive to save is further quickened. Do not wait until you have a large amount to deposit, but begin, if need be, with One Dollar (\$1.00); add to it with persistent regularity, and, together with the 3 per cent. compound interest we pay, it will create a competency to overcome the adversities, and misfortunes, incident to old age.

Form the habit when young by starting an account with this strong institution.

Planters National Bank,

12th and Main Streets, RICHMOND, VIRGINIA.

Capital, \$300,000.00. Surplus and Profits, \$1,200,000.

GET POOR FOOD IN BELLEVUE

Physicians and Nurses of Big New York Hospital Threaten to Resign Their Positions.

NEW YORK.—Special.—Sixty physicians of Bellevue Hospital and about a hundred nurses threaten to leave the institution because of the poor food they charge is served to them. Some are ill at the hospital with diseases traced directly to what they had eaten.

It is alleged that the boarding conditions at the hospital are such that no self-respecting man or woman can abide them.

Indignation meetings have been held this week by the internes to discuss the situation, and a committee of six has been appointed to bring the matter before Mayor Gaynor. Monday this committee will call at the City Hall and will ask the Mayor to drop in unannounced and eat a meal with the internes and see for himself just what they get to eat, how they get it and when they get it. Members of the committee believe that if they can get the Mayor to do this, they will not have to present any further arguments.

Two days ago one of the internes, Dr. S. S. Wade, resigned because the food served to the staff made him so ill he could not work. He has gone away to recuperate.

Dr. John Alkman and Dr. W. M. Curley are ill in the hospital with typhoid fever. An investigation brought to light the fact that both contracted the disease from the food served in the internes' dining room.

In addition to these Dr. C. E. Burdick, Dr. John Rogers and Dr. E. S. Simpson are in bed in the annex with stomach trouble; each case directly traceable, it is said, to the food. Dr. Traub, another interne, is ill with the grip, having contracted the disease because he had not been properly nourished.

None of the internes dares give out any information about the conditions at Bellevue, fearing expulsion.

It has been known for weeks that internes whose homes are in New York go home for their meals and only enter the hospital dining room to keep up appearances.

The city appropriates \$8 a week for the board of the internes, and it is claimed by the physicians that not half that amount is spent on their food. It is cited, as an example of vegetables—and sometimes there are three or four kinds—are put into one dish, taking away the appetites of those to whom they are served. It is asserted that to eat them invites ill-health. It is said, go out to restaurants to get good food to keep them going.

What makes the internes particularly indignant, they say, is that the officials of the institution are better fed. They complain bitterly of having to sit in the same dining room with these officials and see fine steaks, luscious fruits, fresh butter and eggs served while on the internes' table are dumped great dishes of indigestible hash.

Complaint is also made of a rule that if an interne is late for matter what the cause, he cannot get anything to eat until he has reported to the superintendent and has obtained a permit to go to the dining room. The waitresses have been instructed to report all tardy ones to the authorities.

In the nurses' dining room conditions are said to be no better.

Dr. W. H. Smith, medical superintendent of the hospital, was indignant last night when he learned that the physicians and nurses had complained about food without first coming to him. He said everything possible was being done for their comfort.

Secret of Good Teeth

Is the health and purity of the mouth—no matter how perfect your teeth may be to start with, they will not remain so long without the right care.
